PURPOSE & OBJECTIVES

WHAT ARE NZF SKILLS CENTRES AIMING TO ACHIEVE?

The New Zealand Football Skills Centres provide an aligned, co-ordinated approach to junior footballers, aged 9-12 years, wishing to access a higher level of provision. Its main aim is to provide a structured programme for players, in an enjoyable environment that maximises player development.

It is highly likely that the game in the future will be quicker, more technical and tactical, and the demands on our younger players will be elevated. Through a planned, consistent approach to training, based around principles of Long Term Player Development, NZF Skills Centres will provide a perfect start for players wishing to reach the highest level.

OBJECTIVE 1

Produce better players in NZ, through increasing the number of training opportunities & playing hours for footballers aged 9-12 years

OBJECTIVE 2

Provide clear training guidelines, based on international best practice, for junior footballers who are showing potential to play at a higher level

OBJECTIVE 3

Increase & retain the numbers of junior footballers in the game through delivery of a high quality football experience

WHAT ARE NZF SKILLS CENTRES?

A KEY PART OF THE NZF PLAYER PATHWAY

New Zealand Football's National Player Development Framework provides a cohesive structure in order to meet the needs of players across all levels of the game. There is a clear distinction between the progressive stages within the framework, with each stage having clear objectives, guidelines and structures so that the club workforce are better equipped to meet the needs of our players, right up to adult football.

Regardless of motivation or ability levels, players should enjoy a high-quality experience at all stages. The framework aims to meet the needs of all young players, while ensuring they can move across the spectrum from community recreational football right through to the talented perform pathway.

As you can see from the framework diagram, the Junior Framework offers programmes across three pathways in order to cater for the three foundation stages of player development.

The "Talent Perform" pathway offers players, who are showing potential, additional football with a higher level of competition. NZF Skills Centres will offer additional weekly training to junior footballers aged 9-12 years. This provision involves players being challenged appropriately, enhancing their opportunity of further development. Players operating within this pathway will accumulate a greater amount of football specific practice hours than their 'Community Football' counterparts and will be suitably prepared for talented player programmes available in the Youth Framework.

NZF SKILLS CENTRE DELIVERY METHODS

ENSURING ALL PLAYERS HAVE THE CHANCE TO FURTHER DEVELOP THEIR GAME

New Zealand Football want to offer additional coaching support for all players aged 9-12 years, regardless of their stage of development. If a player has the motivation to learn and be challenged, additional avenues should be made available to foster that development. Therefore NZF Skills Centres are split into two categories, “NZF Skills Centre Open” and “NZF Skills Centre +”.

During the Skill Acquisition Phase, 2-3 sessions of 60-75 minutes plus a game is a recommended weekly workload. It is important that players do not play more than this in order to minimise their risk of overuse injuries, safeguarding their long term development. Therefore coaches, parents and players will need to communicate and monitor playing time, working together in the best interests of the player.

NZF Skills Centre Open

NZF Skills Centres Open are available to all junior players who wish to play more football and further develop their ability. Based at a registered Whole of Football Club, NZF Skills Centre Open offer additional sessions within a familiar club environment. The quality of provision will increase the opportunity for player development and raise playing standards. The sessions will focus on learning in an enjoyable environment, and will require enthusiasm and focus from players involved. Junior footballers showing a higher level of potential within a NZF Skills Centre Open will be in the ideal place to be selected for a NZF Skills Centre +.

This allows players to be challenged appropriately with and against players of a similar ability. This will help to accelerate player development as players will be required to operate at a standard that involves a higher level of performance across all four corners. NZF Skills Centre + is the pinnacle provision within junior football and aims to help identify and develop future All Whites and Football Ferns.

GUIDING PRINCIPLES

PROVIDING A PLATFORM FOR PLAYER DEVELOPMENT

All New Zealand Football talent programmes, including NZF Skills Centres, are designed to produce the next generation of All Whites and Football Ferns. Therefore guidance provided is focused on producing players who are able to play the game in the “NZF Way”, stated in our Playing Style Statement:

“A proactive, effective, controlled and incisive possession based style of attacking play using individual and combination play to create and score goals.

Underpinned by a quick transition mentality and defending through aggressive collective, intelligent pressing.

The point of difference is our superior team culture and traditional Kiwi strengths combined with astute tactical cohesion.”

NZF recognise that we need to develop out footballers as players as well as people, and that the focus of training should cover all areas of the 4 corner model. The Technical, Tactical, Mental and Physical components are distinguishable but not separable. They are developed in an appropriate environment where age appropriate values create a culture that promotes learning and enjoyment.

The following principles ensure the appropriate training environment for holistic player development in NZF Skills Centres:

1. Training that looks like the game

Training should involve all four moments (Attacking, Defending and transitions) and place players in scenarios that they will face in the game. This allows players to solve relevant problems through perceiving the problem (P), make a decision based on options identified (D), and execute the decision made (E). This PDE is a key attribute of footballers at the highest level developing and all NZF Skills Centre should incorporate this.

2. Lots of time on the ball is provided

This is the optimal stage for skill development. Players should be given lots of opportunity to develop their game skills and master the ball. Skills developed should be ones that players need to perform effectively during a game, where team mate support is required. Coaches should design challenging, non-isolated and exciting practices and incorporate interference to ensure game realism. Practice aims to develop players across the four corners, helping them progress as footballers but also people too.

3. An enjoyable learning environment is key

An environment of learning and development needs to be created in order to maximise player development at NZF Skills Centres. Whilst sessions need to also be enjoyable, stimulating and interesting for players, coaches are to encourage players to focus on long term development over immediate outcomes (e.g winning). Players take part in “Task Based” exercises where mistakes are embraced as key learning opportunities.

4. Players are fully engaged in training

Coaches are to ensure that no time is wasted at an NZF Skills Centre, to maximise the opportunity of physical and mental development. Activities and questions provided to players upon arrival, when

observing practice or during drinks breaks ensure that whilst a player is at practice, they are constantly challenged and learning.

5. Effective Feedback for players

It is understood that players at this stage will have accelerations and decelerations in their development across the four corners. In order to support their progress, coaches must provide informed feedback that is relevant to the task being performed and the overall objective of the practice. Players are instilled with a “Growth Mindset”, through coaches providing feedback based upon player effort, rather than the successful / unsuccessful outcome only.

PRINCIPLES

- 1 TRAINING THAT LOOKS LIKE THE GAME
- 2 LOTS OF TIME ON THE BALL IS PROVIDED
- 3 AN ENJOYABLE LEARNING ENVIRONMENT IS KEY
- 4 PLAYERS ARE FULLY ENGAGED IN TRAINING
- 5 EFFECTIVE FEEDBACK FOR PLAYERS

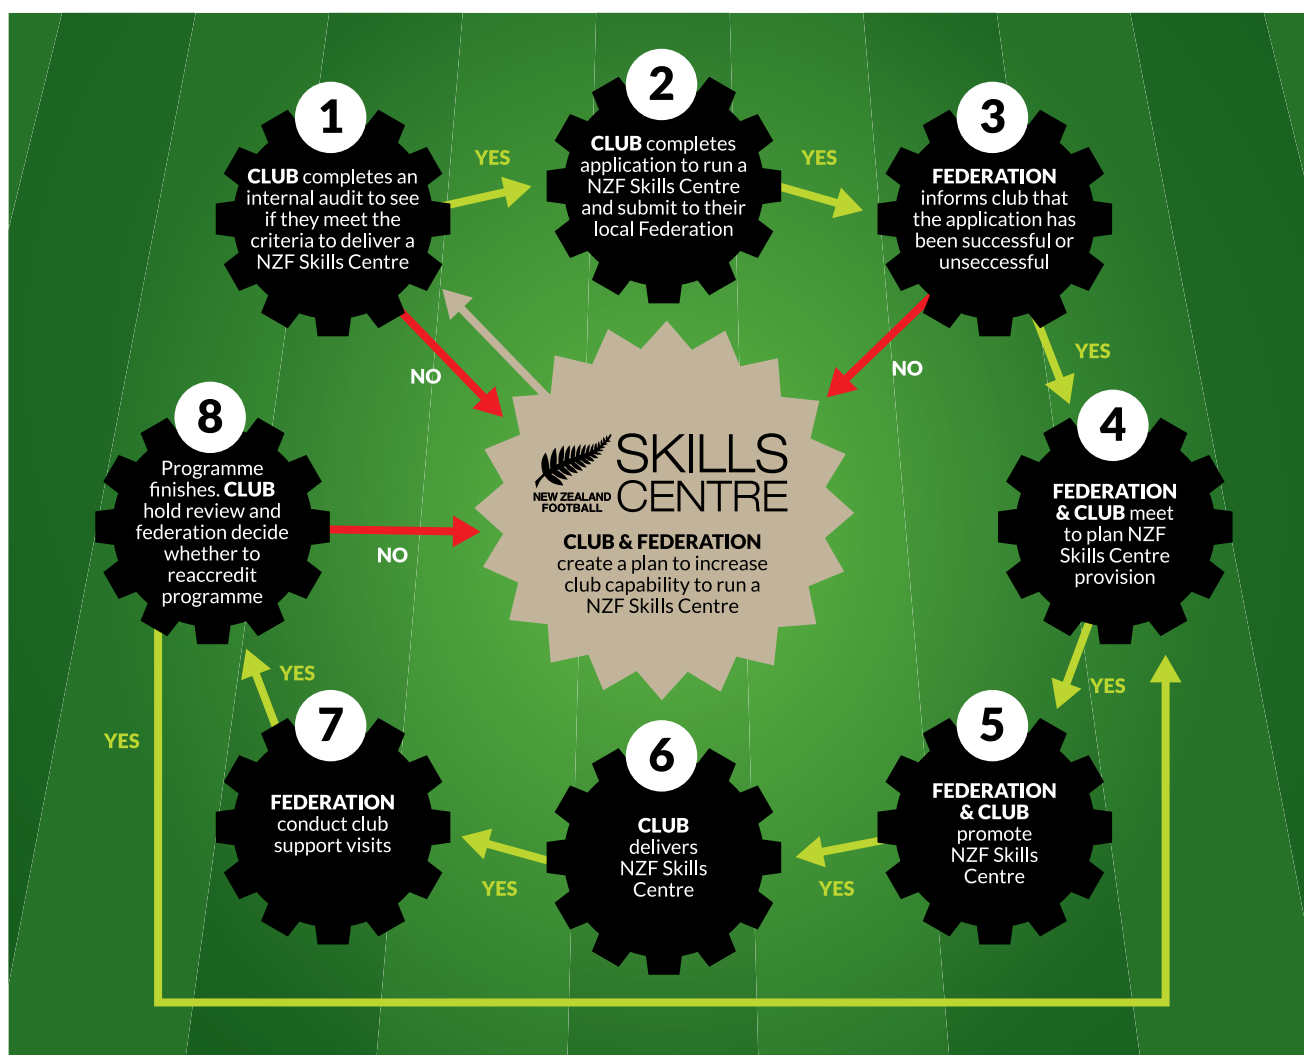

HOW TO SET UP A NZF SKILLS CENTRE

A CLEAR PROCESS TO PLAN, DELIVER AND REVIEW

NZF Skills Centres are accredited and developed by NZ Football. The regional Member Federations throughout New Zealand are responsible for identifying and supporting club delivery of NZF Skills Centres. The model of setting up a NZF Skills Centre is outlined in the diagram below. To cover all aspects of the programme, including financial obligations, a contract is signed between the football club, Member Federation and NZ Football.

It's vital to ensure a consistent standard throughout New Zealand. One key safeguard are the NZF Skills Centre templates provided at the back of this document that aim to make consistent delivery as easy as possible, e.g. the Minimum Requirement Form (Appendix 1 & 2). In addition a Member Federation staff member will visit each NZF Skills Centre programme and use Appendix 1 or 2 as the quality control form. Clubs are also expected to use the NZF Skills Centre curriculum provided, or create sessions that are in line with the NZF Skills Centre principles and agreed by the Member Federation.

CHARACTERISTICS OF JUNIOR FOOTBALLERS

THE GOLDEN AGE OF LEARNING

The Skill Acquisition Phase is important in a player's development as Players are well balanced, coordinated and adaptive to learning football skills. This is the 'Golden Age' of learning. In no other phase of life will motor learning happen faster. Therefore

the Skill Acquisition Phase is the optimal time to focus on developing football skill which is essential for long term participation. Training and Playing should place emphasis on the learning of football skills within the context of the game.

CHARACTERISTICS AT THIS AGE INCLUDE:

Well balanced and co-ordinated and adaptive to learning motor skills

Players are becoming interested to learn and apply the relevant skills required in the game

Capable of and enjoy problem solving and challenges

Very active, energetic and motivated

Start to become more aware of and recognise the value of others

Sensitive to criticism and failure

Competitive and enjoy being challenged

Mentally ready for a more structured approach to training

THE ROLE OF A NZF SKILLS CENTRE COACH

CREATING THE OPTIMUM LEARNING ENVIRONMENT

High quality coaching clearly plays a large part in the long term development of young players. Creating a positive learning environment, designing relevant training sessions and providing appropriate feedback will instil high levels of intrinsic motivation in players.

Creating the optimum learning and fun environment, whilst being aware of the issues that may arise out the four corner model, will ensure young players have the best possible chance progressing in the game. To work effectively with young players, coaches must combine the knowledge of the game with an understanding of what it's like to be young. For example, a coach of 9

year olds may have lots of knowledge of the game but if they don't know what motivates and enthuses young players, and the different ways in which to communicate with them, less learning may take place.

The guiding NZF Skills Centre Principles, provided on page 10 & 11 of this document, should be at the forefront of the coach's mind. It is important that coaches familiarise themselves with the principles in order to design and deliver in the appropriate manner.

When coaching players in NZF Skills Centres, coaches can apply the following to work effectively:

DESIGNING RELEVANT TRAINING SESSIONS THAT

- look like the game and focus on one of the Core Skills, from beginning to end
- involve lots of opportunities for practice of PDE (Perception, Decision Making & Execution)
- involve the players at all times, including on arrival and at drinks breaks
- provide appropriate challenges for players, with an option to step the challenge up or down
- provide tasks for the players involved, provide them with something to attempt to achieve
- are well organised, allowing quick transitions from one practice to the next
- have outcomes for individual players as well as the group as a whole
- are part of a planned programme for long term player development

CREATING A POSITIVE LEARNING ENVIRONMENT THAT:

- is player centred, with the focus on ensuring that they have the opportunity to develop
- is enjoyable for players to be part of, through fun games and appropriate challenges
- creates an intrinsic motivation in players, where they want to develop their ability and take ownership of the process
- show cases leadership and integrity as a positive characteristics to uphold
- encourages players to try new things and be creative
- recognises mistakes as a key part of the learning process and does not punish them

PROVIDING PLAYER FEEDBACK THAT:

- is based upon the specific tasks that they have been asked to do
- focuses on the effort of players, as well as the outcome of the task performed
- is delivered in the appropriate manner that suits the player's needs
- is provided in different formats such as conversation before / after training, during the session or at player meetings
- is concise using words and pictures that players understand
- is related to NZF playing philosophy
- is recorded by the coach and built upon in future training sessions, allowing the player to construct knowledge.

NZF SKILLS CENTRE CURRICULUM

CREATING THE PLAYER OF THE FUTURE

It is highly likely that the game in the future will be quicker, with less time and space in which to operate. Therefore players will have to act quicker to meet the demands of the game. New Zealand Football's phased approach, aligned to a national curriculum, will help create players of the future. As players progress into the youth framework the foundation

of practice completed at the 9-12 year age groups should give them the ability and confidence to play in line with NZF's philosophy.

The curriculum is built on the four moments of the game but an emphasis on attacking and defending. It is based on 4 Core Skills when attacking, 4 Core Skills when defending and 2 constants that occur throughout the game:

ATTACKING 'CORE' SKILLS

- Striking the ball - This includes all forms of striking the ball such as short/ long passing; shooting and crossing
- Receiving the Ball - Controlling the ball with all allowed body parts
- 1 v 1 - All moves, feints and accelerations to get past and away from an opponent
- Travelling with the ball - At speed (with a lot of space) or 'dribbling' (in tight areas), this includes techniques for protecting the ball and changing direction.

DEFENDING 'CORE' SKILLS

- Pressing – closing the opponent and pressuring the ball
- Marking – staying close to the opponent and limiting their time and space
- Intercepting – reading the game and stealing the ball
- Tackling – contesting the ball

2 CONSTANTS

- Positioning – off ball movement to find or create space
- Communication – giving and recognising verbal and non verbal cues

GK Core Skills can be found in the NZF Skills Centre GK document, along with guiding principles and appropriate curriculum.

STRUCTURING PRACTICE

NZF Skills Centre sessions are designed so that all core skills will be evident. However the coaching will provide an emphasis on one of them, from when the player arrives to when they leave. This will result in well-rounded skill development, whilst ensuring that

players gain an understanding of each core skill. NZF Skills Centres are structured to maximise time spent with the players as well as providing appropriate challenges at the relevant time:

SKILL ARRIVAL

DURATION: 5-10 MINUTES

An arrival game for players to take part in as soon as they arrive to training, especially if they are early. The emphasis is placed upon immediately being involved in a creative “play” environment.

- Skill Arrival activities will be small sided games (no more than 3v3) with no conditions.
- The players are encouraged to play as soon as they arrive, and make adjustments to the teams / pitches as more players get to training
- The coach finishes setting up the training session, then observes to see the ability / attitude levels of players. This is important to ensure that the challenge set at training is at the appropriate level.

Coach Observes : Players Play

Skill Arrival Example

SKILL INTRODUCTION

DURATION: 10 - 15 MINUTES

This is the warm-up as well as an introduction to the designated Core Skill for this session. These ball related activities should:

- Involve an element of interference, ensuring that decision-making takes place.
- Coaches are to encourage, enthuse and ensure that all players are partaking. It is also an opportunity to observe playing levels of the Core Skill.

Coach Influences : Players Play

Skill Introduction Example

SKILL TRAINING

DURATION: 20-25 MINUTES

This is the part of the session where conscious teaching and learning of the designated Core Skill takes place.

- Lots of repetition in game realistic scenarios
- Task-based coaching
- Effective, relevant feedback
- Use of questioning (ask players 'why did you choose that option?', 'where do you think there might be more space?', etc)

Coach Teaches : Players Learn

Skill Training Example

SKILL GAME

DURATION: 20 - 30 MINUTES

A game where as much as possible all the elements of the real game are present but organised in a way that the designated Core Skill has to be used regularly.

- Skill games are preferably small sided games to stimulate the number of repetitions/touches!
- The players play, the coach observes if learning has taken place.

It is also advisable to 'wrap-up' the session at the end, summarising the main points of the session to enhance learning.

Coach Assesses & Teaches : Players Play

Skill Game Example

HOME PLAY

A fun activity, based on a Core Skill, for players to take part in at home in the back garden, at school or in the park with friends.

- Home play activities are individual or small group activities played in a smaller area
- The players practice as much as they wish to, and the coach may ask players to show what they have learnt during the next practice. This is key to instilling an intrinsic motivation in players to develop ability and also provides many more practice hours.

PLANNING A NZF SKILLS CENTRE PROGRAMME

CREATING A SKILL ACQUISITION PROGRAMME FOR JUNIOR PLAYERS

PLANNING GUIDELINES

Many expert football players are products of a lifelong dedication to self improvement and accumulate thousands of hours of practising and playing games on the way pathway to excellence. Due to the small amount of player-coach contact, it is important that coaches have a plan in place that ensures players are getting what they need not only in each training session but across the course of the year.

In order to do this, planning is an important aspect of coaching and NZF suggest the following approach:

- Create a season template for your NZF Skills Centre Training Programme
- Divide the season into a 6-week cycle

- Label each cycle and week (for example, 'Cycle 3, Week 4')
- Insert the game days on to your plan
- Mark the days on which training sessions for that age-group will take place
- Insert the Core Skill that is to be focused on at each training session
- List the Exercise and Player Tasks for each training session

Please see the following example on the next page of a training programme for the NZF Skills Centre. The 6 week cycles are based on the assumption that two weekly NZF Skills Centre training sessions are taking place, on Tuesdays and Thursdays, with one club training session on Wednesday and a game on Saturday.

GUIDANCE

1. FOCUS ON THE ATTACKING MOMENT

NZF have prioritised the attacking Core Skills for the programme, with the aim of creating players who are comfortable in possession. This is linked to the Playing Philosophy and based upon the analysis of the player that are currently produced. Therefore NZF suggest that there is a ratio of 3:1 for attacking and defending sessions. However all NZF Skills Centre sessions are designed so that there is a level of opposition and therefore competition, so even if defending isn't the main focus of the practice, it is still evident.

2. 6 WEEK CYCLES

Cycles of 6 weeks permit players to revisit the Core Skills on a regular basis, providing staged player development. Players will be able to focus on the Core Skill and the degree of difficulty will rise as they become competent in that area. Coaches are able to assess what has been learnt by players over a longer period of time, based on what they remember from the previous session with the same focus.

3. FOCUS ON THE CORE SKILL TWICE IN 1 WEEK

In order to assist player learning, NZF suggest that the same Core Skill is focused on during one week. This does not mean replicating the session exactly, but coaches would look for similar outcomes from players. This allows players to familiarize themselves with tasks that they have been set and gives them an appropriate amount of time to practice. It will also ensure that players are operating with the appropriate level of difficulty for a longer duration.

NZF SKILLS CENTRE SESSION LIBRARY

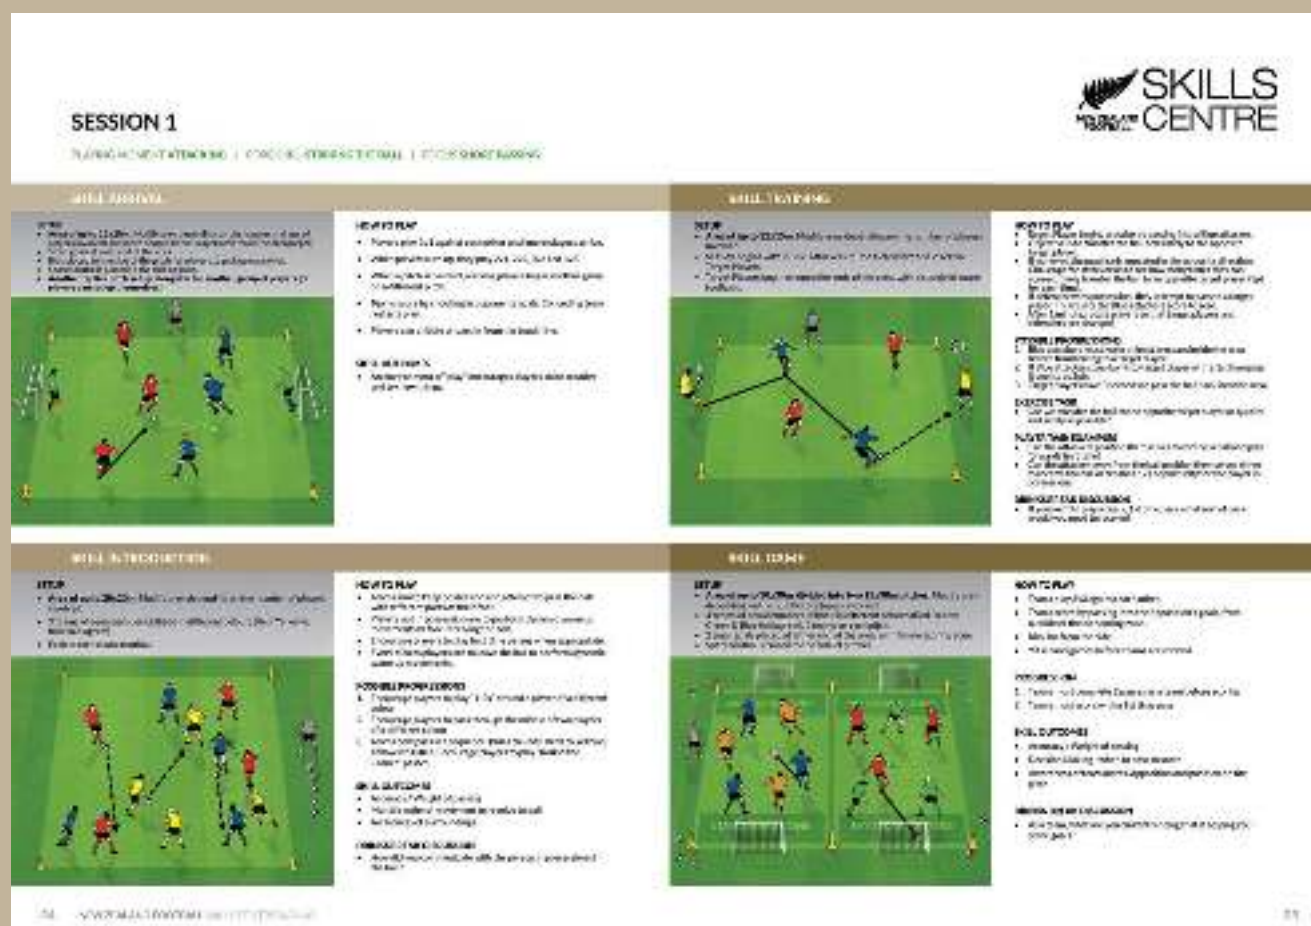

Provided in the following section are examples of weekly sessions for a NZF Skills Centre programme. All sessions are designed with the aim of creating players for the future game, in line with NZF's playing philosophy. Each session has a number, linking it to the training programme outlined on pages 20 & 21.

All practices can be altered to change the Core Skill focus (Attacking or Defending) and can be progressed

or regressed easily to meet player ability. The role of the creative and enthusiastic coach is to bring the suggested sessions to life.

Coaches are encouraged to design their own practices based on the principles of NZF Skills Centres, but sessions delivered will be monitored to ensure high standards are maintained. Sessions designed to a high level will be included in the NZF Skills Centre national library.

Specific sessions for GKs can be found in the NZF Skills Centre GK document.

SESSION 1

PLAYING MOMENT **ATTACKING** | CORE SKILL **STRIKING THE BALL** | FOCUS **SHORT PASSING**

SKILL ARRIVAL

SETUP

- **Area of up to 12x20m.** Modify area depending on the number and age of players involved. (As more people arrive, players can make the area larger)
- Small goals at each end of the area.
- Bibs placed to the side of the pitch for players to pick up on arrival.
- Spare footballs placed to the side of goals.
- Another replica pitch set up alongside for another group of players (or players can set up themselves)

HOW TO PLAY

- Players play 1v1 against each other until more players arrive.
- When players turn up, they play 2v1, 2v2, 3v2 and 3v3.
- When a pitch achieves 3v3, arriving players begin another game on a different pitch.
- Teams score by shooting in opponents goals. Conceding team restarts play.
- Players can dribble or pass in from the touch line.

OUTCOMES

- An environment of “play” encourages players to be creative and try new things.

SKILL INTRODUCTION

SETUP

- **Area of up to 20x20m.** Modify area depending on the number of players involved.
- 3 teams of equal numbers, bibbed in different colours (Red, Yellow & Blue in diagram)
- Each team has one football.

HOW TO PLAY

- Teams aim to keep possession and attempt to pass the ball with different parts of their foot.
- Players not in possession are to perform dynamic warm up movements before receiving the ball.
- Encourage players to play first time passes when appropriate.
- Every 60secs players are to leave the ball to perform dynamic warm up movements.

POSSIBLE PROGRESSIONS

1. Encourage players to play “1-2s” around a player of a different colour
2. Encourage players to pass through the middle of two players of a different colour
3. Teams now pass in a sequence. Blues to Reds, Reds to Yellows, Yellows to Blues. Encourage players to play “Round the Corner” passes.

OUTCOMES

- Accuracy / Weight of passing
- Multidirectional movement to receive to ball
- Awareness of surroundings

DRINKS BREAK DISCUSSION

- How did you communicate with the person in possession of the ball?

SKILL TRAINING

SETUP

- **Area of up to 12x15m.** Modify area depending on the number of players involved.
- Session begins with 2 Blue Attackers, 2 Red Defenders and 2 Yellow Target Players.
- Target Players begin on opposite ends of the area, with a supply of spare footballs.

HOW TO PLAY

- Target Player begins practice by passing into a Blue attacker.
- Objective is to transfer the ball accurately to the opposite target player.
- If achieved the practice is repeated in the opposite direction. Challenge for attackers is to see how many times they can consecutively transfer the ball to an opposite target player (1pt for each time).
- If defender wins possession, they attempt to pass to a target player. This resets the Blue attackers score to zero.
- After 1 minute, rotate players so that target players and defenders are changed.

POSSIBLE PROGRESSIONS

1. Blue attackers must make at least one pass inside the area before transferring to a target player.
2. If Blue attackers pass ball into target player with a 1st time pass it counts as 2pts.
3. Target players have 3 seconds to pass the ball back into the area.

EXERCISE TASK

- Can we transfer the ball to the opposite target player as quickly and safely as possible?

PLAYER TASK EXAMPLES

- Can the attackers position themselves to receive a ball and play forwards first time?
- Can the attacker away from the ball position themselves either to receive the ball or create a 1v1 opportunity for the player in possession?

OBSERVATION DISCUSSION

- If you want to play a quick, 1st time pass, what sort of pass would you need to receive?

SKILL GAME

SETUP

- **Area of up to 30x30m, divided into two 15x30m pitches.** Modify area depending on the number of players involved.
- 4 teams of equal numbers, bibbed in different colours (Red, Yellow, Green & Blue in diagram). 2 teams on each pitch.
- 2 small goals placed at either end of the area, with 5m no scoring zone.
- Spare footballs placed to the side of pitches.

HOW TO PLAY

- Teams play 3v3 against each other.
- Teams score by passing into the opposition's goals, from outside of the no-scoring zone.
- Kick Ins from the side.
- 90 second games before teams are rotated.

PROGRESSION

1. Teams must complete 2 passes as a team before scoring
2. Teams must score with a 1st time pass

OUTCOMES

- Accuracy / Weight of passing
- Decision Making - when to pass to score
- Awareness of team mates, opposition and position on the pitch

DRINKS BREAK DISCUSSION

- As a team, what are you currently doing that is helping you score goals?

SESSION 2

PLAYING MOMENT **ATTACKING** | CORE SKILL **STRIKING THE BALL** | FOCUS **SHOOTING FROM CLOSE RANGE**

SKILL ARRIVAL

SETUP

- **Area of up to 12x20m.** Modify area depending on the number and age of players involved. (As more people arrive, players can make the area larger)
- Small goals at each end of the area.
- Bibs placed to the side of the pitch for players to pick up on arrival.
